10) Week 4 Vocabulary Part B

I have used 3 vocabulary words in a sentence. Use the context clues in each sentence to remember the definition and write it down. If you are still having trouble remembering, use your notes.

1. The research team did a **quantitative** study of how many hours a day teens spent texting. They were looking to find out the number of hours, and not what teens actually text.
2. My mom didn't like the way the flowers **protruded** from the vase. She thought they stuck out too far so she trimmed the stems to make them shorter.
3. The amount of homework from our math teacher is such an **imposition**. Does he really think we have time to do all that homework every night when we have other subjects to study for as well?

Now you write a context clues sentence for the following words: **Heritage, Crony**

Make sure that you use words and phrases to give hints and clues about the definition of the word.
